

CERN Document Server (CDS)

More than **430,000** bibliographic records and **170,000** fulltext documents about [CERN](#) and high-energy physics. Covers preprints, books, periodicals, reports, photographs, and more.

[\[complete search interface\]](#)

SERVICES

[SEARCH](#) - <http://weplib.cern.ch/>

Permits to search through the bibliographic information and the fulltext of documents stored in CDS catalogues. Offers personal baskets, email alerts, ...

[SUBMIT](#) - <http://doc.cern.ch/Submit>

Permits the electronic submission of documents from inside and outside of CERN.

[CONVERT](#) - <http://doc.cern.ch/Convert>

Offers a possibility to convert user-uploaded documents from one format to another (e.g. MS Word to PDF).

[SCAN](#) - <http://doc.cern.ch/Scanning>

Offers a possibility to have your paper-based documents scanned. (CERN Intranet only, **not free of charge**).

[AGENDA](#) - <http://agenda.cern.ch/>

Offers a possibility to plan your meetings or workshops and to store minutes.

Also have a look at our new [Document Impact](#) tool

LATEST NEWS

[06 Feb 2002] **New web pages for webcast.cern.ch**

[HIP](#) and CERN Document Server have released a new version of the [webcast site](#) to provide a better access to all video-encoded lectures kept at CERN. The main advantage is that it relies on the Agenda database of seminars and it will therefore be automatically updated as soon as new videos are released.

[24 Jan 2002] **CERN Weekly Bulletin on-line**

The CERN weekly bulletin is now released completely electronically at <http://bulletin.cern.ch>. All articles since October 2000 are stored in the CERN Document Server database and they can easily be [searched](#) from CDS Web interface.

[18 Dec 2001] **CERN Director General Talk webcasted**

The internal end-of-the-year CERN DG speech has been live-webcasted by CERN Document Server. Up to 140 simultaneous connections have been made from offices all over CERN.
