

Reprocessing Tests over the Weekend

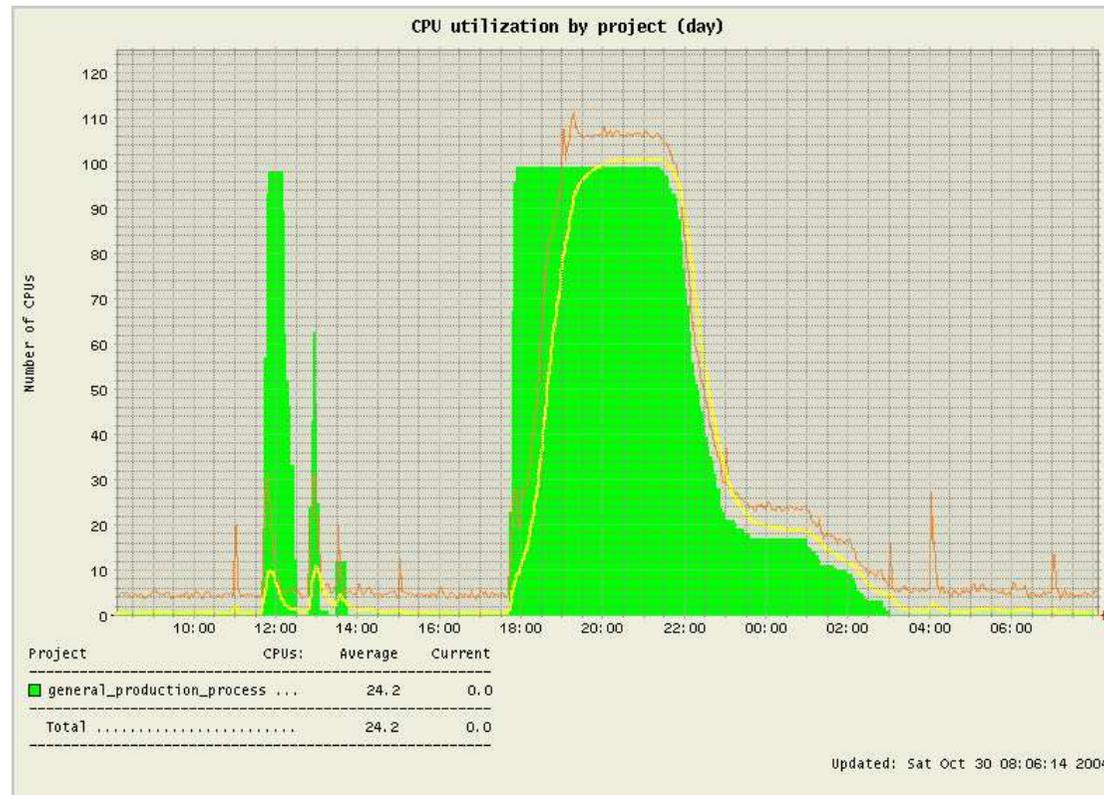

Daniel Wicke
(Fermilab)

Outline

- Test with 100 Files
- Test with 600 Files
- Summary

Test of 100 parallel jobs

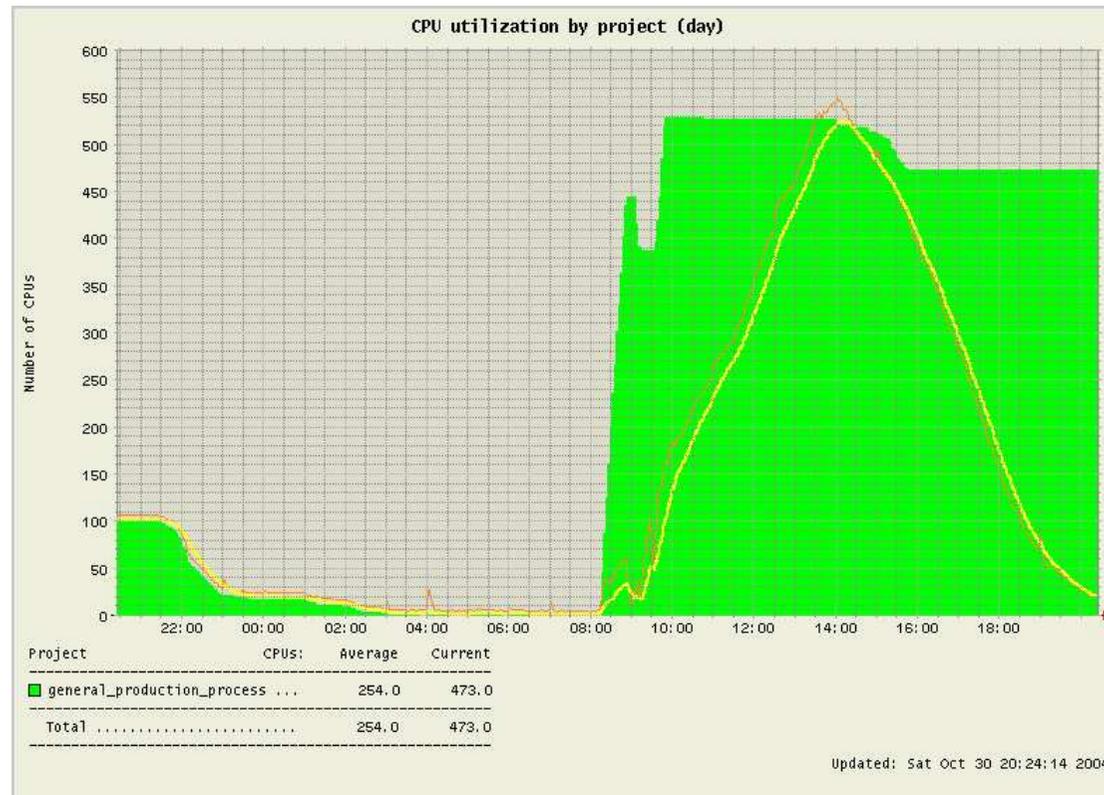

100% success:

All DSTs and TMBs stored to 'durable' SAM location.

Monitoring web pages functional through out the test.

Turn on from submission to full running: 1.5h.

Test of 600 parallel jobs

Several Failures:

XML DB had to be restarted (70jobs lost).

Turn on from submission to full running: 5h.

Storing of remaining jobs failed due to no space left on device.
