

D0 Status Report

Bill Lee
FNAL

All Experimenters' Meeting
1 March 2010

Data Taking

	Delivered Lum (pb ⁻¹)	Recorded Lum (pb ⁻¹)	Efficiency (%)	Comment
--	-----------------------------------	----------------------------------	----------------	---------

22 Feb	7.17	6.66	93	
23 Feb	8.97	8.49	95	
24 Feb	8.41	7.70	92	
25 Feb	8.89	8.25	93	Opportunistic access to replace a forward muon power supply, also adjusted track trigger and fiber tracker.
26 Feb	6.04	5.62 (3.99)	93 (66)	CAL BLS power supply failed. Special Silicon, Muon, and Luminosity runs taken. Access to replace supply
27 Feb	11.87	10.82	91	7 th best daily delivered luminosity 10 th best for recorded
28 Feb	10.56	9.94	94	
(Data taken with full detector)				
22-28 Feb	61.9	57.5 (55.9)	93 (90)	10 th best weekly delivered luminosity 9 th best for recorded
February	214	198	92	9 th best monthly delivered and recorded luminosity

Daily Data Taking Efficiency

1 October 2009 - 28 February 2010

Run II Integrated Luminosity

19 April 2002 - 28 February 2010
