

# D0 Cosmic Report

Bill Lee  
FNAL

All Experimenters' Meeting  
5 December 2011

# Data Taking

Week	Cosmics hours/day	Magnet status	Comment
31 Oct - 6 Nov	22.1	off	Access to replace Calorimeter daughtercard
7-13 Nov	22.4	on	Forward muon studies. Access to replace cal daughtercard and pulser power supply
14-20 Nov	19.4	off	Access to replace Calorimeter daughtercards and pulser power supply. Silicon studies. Access to open detector to recover silicon power supply.
21-27 Nov	22.8	on	Access to replace Calorimeter daughtercard
28 Nov - 4 Dec	18.5	off	Transitioned hall to supervised access. Access to replace Calorimeter daughtercard. Forward muon studies. Access to open detector and recover bad drip detector. Access to survey detector alignment.

# Plans

- For the next week, we will run with the magnets on.
  - We appreciate AD personnel's assistance in securing hall today.
- Followed by two more weeks of magnet off cosmics.
  - Final D0 control room shift scheduled for 23 December.
